

All means All: A conversation on Abortion Access Throughout Pregnancy

Tuesday, September 9, 8 PM ET, 5 PM PT

Join Grandmothers for Reproductive Rights (GRR!) and End Abortion Stigma (EAS) for a rich and unapologetic conversation about the importance of advancing abortion access for ALL (not some!) pregnant people at all points in pregnancy.

We will hear from experts with lived experience about the necessity of access to care during all three trimesters, as well as ways we can ensure our advocacy includes and never abandons those needing abortions after the first trimester.

GRR! Director of Programs & Outreach, Cait Vaughan, will moderate a lively discussion between patient, advocate and co-founder of Patient Forward (patientforward.org), Erika Christensen, and abortion care provider and author (shelleysella.com), Dr. Shelley Sella. Closed captioning will be provided via Zoom.

If you have access needs or questions, contact Cait Vaughan (cait.v@grrnow.org).

This virtual program is an extension of the 3rd Annual Reproductive Rights Film Festival in Ithaca, New York, hosted by End Abortion Stigma and GRR!. You can see the full schedule of film screenings, talkbacks, and events here: <https://closetohomeproductions.com/reproductive-rights-film-festival/>
